5 day Church Planting Workshop PreWork

Use the electronic workbook (which has 5 lessons and some interactive graphic elements uniquely included). This workbook can be freely downloaded at: http://churchtaskforce.org/cpm/GPCP_2010.1.pdf

Prework Purpose

The prework can be comfortably completed within 30 to 40 hours. This is a substantial amount of work, but doing so will allow you to both contribute and receive from others in an interactive, workshop format. This workshop is NOT delivered in a lecture format, but in a shared, collaborative study together. You each bring substantial learning and experience to this gathering, and the pre-work is meant to pull together and focus the training God has already given you through the years He has been preparing you.

Prework Assignments

1. Lessons (30 minutes to 1 hour each, approximately 32 hours total work)

There are 45 lessons in the workbook (Lessons 1-43--including lessons 31A,B,&C). For pre-work, you should do parts 1 & 2 of each lesson, which involves:

- A. Observe—what is written in the Bible? Read selected scripture passage(s).
- B. Fill in workbook section(s), recording your observations and insights (each lesson asks specific questions).
- 2. Complete Section 3: Leadership (5 topical areas with a dozen or so questions each, approximately 6 hours total work)
- 3. Read/complete Supplements A-F (15 to 30 minutes each, approximately 2 hours total work)

Prework Timing

Use whatever approach works best for you:

- If you invest one hour per day, you should be well equipped for this workshop.
- If you prefer extended times, six or seven half days on Saturdays will also work.
- Either way, you need about 6 weeks if you want to pace yourself.
- If you prefer to cram, plan at least three full days.
